Dear all,

Inter Country Committees, the 60 years old organization, today growing at a faster pace, is the practical, unique strategy to address the quest for coexistence and international understanding. A quest that goes much beyond any border to foster peace, freedom and democracy, ICC represent a sustainable, viable long term program to employ Rotarians' skills in establishing contacts, maintaining them, stimulating Clubs to become real “outposts of peace”, key players to dare much and get there, where it is more difficult and more needed by communities.

ICC enhances the power of the ones that cross borders and beyond, share vision, dreams and hopes, often forgotten values in today's society, to create virtuous links among people and societies.

If you are visionary, skilled, passionate Rotarians curious to know and include who belongs to a different society, with a different political system, a different economy, a different religion, a different social security, a different "beat", well, it is the right time to be Rotarian, the right time to contribute as a Stakeholder in Peace to do good in the world. Come along, know more about ICC, be part of our teams, we will be glad to hear from you and welcome you on board!

Gianni Jandolo
Inter Country Committees
Chair of Executive Council 2012-14
